# INTRODUCTION

General Sir John Kotelawala Defence University (KDU) of Sri Lanka is empowered to award Degrees by General Sir John Kotelawala Defence Academy Act No.68 of 1981 and subsequent amendments thereto, to those who successfully complete components of studies pertaining to its degree programmes.

KDU has been in the forefront of military education in the South Asian region since its inception producing intellectually, physically and mentally capable graduates for the military services. By opening its doors to the civilian day scholars, KDU expended its scope further and the day scholar programme is currently attracting many students due to its successful implementation.

The increasing number of local and international students attending KDU each year reflects both local and international recognition earned by the degrees offered by KDU. Today, this university operates with nine fully-fledged faculties offering degrees that are benchmarked with similar courses offered by prestigious local and foreign universities.

KDU expanded its service by opening the Southern Campus which commenced its academic activities in January 2015. Two new faculties have been established in the Southern Campus to offer degree programmes in the fields of Built Environment and Spatial Science and IT.

The most interesting phenomenon of the university is its unique subculture where commissioned officers, officer cadets and nonmilitary students, both local and foreign study together in the same class. This environment automatically instills discipline into students, and they acquire the necessary skills to work in multicultural social settings. The university is able to maintain this unique culture due to the fact that students are selected through a rigorous interview process that ensures the selection of protential candidates to be groomed into balanced personalities.

All KDU courses offered at present have also been fine-tuned to suit future needs of different fields so that our graduates will be in high demand anywhere in the world.

# COMMON ELIGIBILITY REQUIREMENTS
